author

Dominic Ziegler's book takes a journey down the Amur – one of Asia's last free flowing rivers – and the contested border lands of Russia and China where conservation has kept a fragile peace.

Black Dragon River is a personal journey down one of Asia's great rivers that reveals the region's essential history and culture. The world's ninth largest river, the Amur serves as a large part of the border between Russia and China. He follows a journey from the river's top to bottom, and weaves the history, ecology and peoples to show a region obsessed with the past—and to show how this region holds a key to the complex and critical relationship between Russia and China today.

"The writing is superb...a true labour of love, Black Dragon River is a triumph." – [The Spectator](#)

"In his ambitious Black Dragon River: A Journey Down the Amur River at the Borderland of Empires, Dominic Ziegler makes the powerful case that this Asian Russia has been wrongly overshadowed by the country's much smaller European component... As the book's subtitle indicates, Mr. Ziegler uses one of the world's great rivers as a vehicle to pursue this story—and what a vehicle it is. ...[He] writes beautifully, and with the fervor of a naturalist." - [The Wall Street Journal](#)

Highly rewarding for those with a sense of adventure...Ziegler's writing [leaps] and sparkles in all directions like the salmon, fireflies and other Siberian fauna he delights in describing. As he travels, Ziegler stirs up an enthralling mix of...travelogue, history and anthropology." – [The Telegraph](#)
